In Washington state, more than 785,000 people live in poverty
and 428,000 cannot afford or do not have access to health insurance.

PROJECT ACCESS NORTHWEST IMPROVES COMMUNITY HEALTH

by connecting those most vulnerable to vital health care services

CARE COORDINATION

We schedule **thousands of appointments** each year with our network of **1,740 volunteer specialty care providers**. Patients in need can receive treatment and follow-up care at no cost to them.

PREMIUM ASSISTANCE

With partner support, we **purchase health insurance** on the Exchange for those who cannot otherwise afford the premiums. This allows patients to access ongoing, appropriate health care rather than emergency care.

BEHAVIORAL HEALTH

We are exploring ways to **address a significant need for mental health services**.

We are raising funds to expand on our proven, sustainable model of donated care and create a pro bono counseling network.

GUARDIANSHIP SERVICES

We help appoint guardians **for indigent patients** who are languishing in hospitals.

Our first 20 guardianships helped to free up

340 beds

for other hospital patients
(~\$4 million value to our partners)

"It was a big thing for me that someone actually cared. They saved my life!"

—Ruth,
Life-saving medication

"Without the program, we would have lost our home."

—Raymond & Mary,
Premium Assistance Program

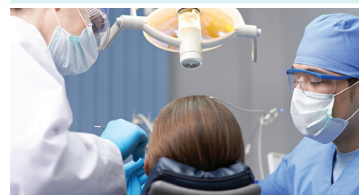

In 2021,

4 in 10

people expressed
anxious or depressive
thoughts

(a fourfold increase since 2019)

Our care coordination model already refers clients to more than **50 medical specialties!**

DENTAL CLEARANCE

We partner with **Northwest Kidney Centers** to provide dentures and dental clearances for patients in need. More than 100 patients have been cleared for and received a kidney transplant.

We're transforming access to health care in Washington

PATIENTS

WE PROVIDE PATIENTS access to vital medical care and empower them to navigate the complex health care system so they can live healthier, productive lives.

PROVIDERS

WE OFFER PROVIDERS an easy, efficient process for donating care. They can focus on delivering life-saving medical care.

PARTNERS

WE PARTNER WITH OUR REGION'S HOSPITALS and major medical systems to develop innovative programs and solve patient-care challenges.

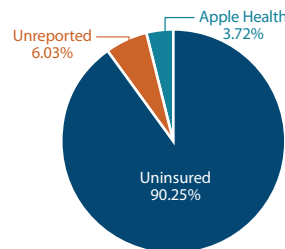

COMMUNITY

WE SUPPORT THE COMMUNITY SAFETY NET and connect the vulnerable to vital health care services, preventing long-term issues, hunger or homelessness.

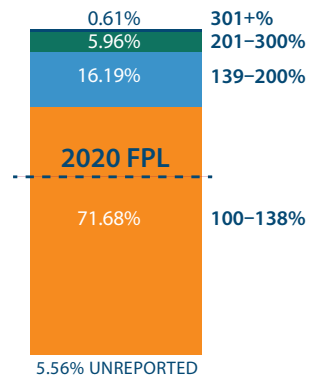

We provide interpreters for more than **50** patient languages

With a patient no-show rate of just **5.52%** our providers can count on efficient use of their time

Patient Insurance

Patient Income

Since 2006, we have coordinated more than **60,000 appointments** and connected patients to essential health care services.

Income as compared to Federal Poverty Level (FPL)

"If there wasn't a program like Project Access Northwest, these uninsured patients would go untreated for a long period of time... The longer a patient waits, the more likely that the cancer will be harder to treat. Project Access Northwest saves people's lives."

—MICHAEL WOLFE, MD
OTOLARYNGOLOGIST
